

Equipment:

- MaxxQ 4450
- TYR Avictor Technical Swimsuit
- 12 foot X 12 foot sheet of Nylon
- 12 foot X 12 foot sheet of Teflon
- 12 foot X 12 foot sheet of Silicone
- 36 feet of Teflon sewing Thread

Techniques:

- For testing water absorbency, I would first submerge the different materials into water for 5 minutes then put it in the MaxQ 4450 for 10 minutes to observe how much water was absorbed by the fabric.
-
